

Prof. Katarzyna Samborska

Department of Food Engineering, Warsaw University of Life Sciences – SGGW, Poland

Delegate in Working Party on Drying, European Federation of Chemical Engineering

Prof. Katarzyna Samborska received her PhD in food engineering (2004) from Warsaw University of Live Sciences in Poland.

In 2003-2004 she was a Marie Curie scholar at Katholieke Universiteit Leuven in Belgium.

She has been working on spray drying of sugar-rich foods and enzymes for the past 20 years. She has published more than 80 papers in top-ranked international food science journals (h-index=28 in Scopus), is the main author of two patents related to the production of honey powder, and was the co-editor of a special issue in *Drying Technology* devoted to spray drying for the retention of food bioactive compounds and nutraceuticals. She is one of the world's highly cited researchers (2% top) by Clarivate Analytics (2024, 2025).
